International Journal of
Project Management

Index to Volume 6: 1988

Author

Albino, V, Cavallone, S and Mummolo G A new approach in the engineering project analysis: the aggregation game 45
Angling, M Resource planning and control in a multiproject environment 197
Barnes, M Construction project management 69
Bu-Bushait, K A Relationships between the applications of project management techniques and project characteristics 235
Churchill, G F Quality assurance – an effective project management technique 241
Cornick, T C Quality management model for building projects 211
Curling, D H Project management PC workstation – a microcomputer application to government projects 217
Davis, R M G and Saunders, R G Applying systems theory to project management problems 19
Dawes, N J The Greater Cairo Wastewater Project 107
De Wit, A Measuring of project success 164
Epling, J A Management: a synergistic catalyst in construction production 148
Fan, L Equity joint ventures in the Chinese construction industry 50
Fangel, M The Viking approach to project management 102
Gilbert, G P Project management as a tool in the underwater contracting industry 5
Graham, R The future of project management: some North Sea experiences 153
Jaafari A Probabilistic unit cost estimation for project configuration optimization 226
Mansfield, N Assessment of strengths in the UK international construction sector 141
Muspratt, M A Unions in the construction industry 80
Probst, A R and Worlitzer, J Project management and expert systems 11
Repovž, L Project financing and financial engineering 171
Stoddart-Stones, R Development of project management systems for major projects 34
Taylor, P Superiority of NPV over NPV/K, and other criteria in the financial appraisal of projects: the case of energy conservation 223
Turner, E K Scope definition for bidding project-control services 39
Turner, J R, Grude, K V, Haug, T and Andersen, E S Corporate development: balancing changes to people, systems and organization 27
Weller, P Stansted Airport Development: a case study 133
Wirth, I and Hibshoosh, A Decision support system for multiproject scheduling of resources in blood collection programmes 202
Wolf, M L J Expert sessions on software projects 97
Woodworth, B M and Shanahan, S Identifying the critical sequence in a resource constrained project 89

Title

A new approach in the engineering project analysis: the aggregation game **Albino, V, Cavallone, S and Mummolo, G** 45
Applying systems theory of project management problems **Davies, R M G and Saunders, R G** 19
Assessment of strengths in the UK international construction sector **Mansfield, N** 141
Construction project management **Barnes, M** 69
Corporate development: balancing changes to people, systems and organization **Turner, J R, Grude, K V, Haug, T and Andersen, E S** 27
Decision support system for multi-project scheduling of resources in blood collection programmes **Wirth, I and Hibshoosh, A** 202
Development of project management systems for major projects **Stoddart-Stones, R** 34
Equity joint ventures in the Chinese construction industry **Fan, L** 50
Expert sessions on software projects **Wolf, M L J** 97
Identifying the critical sequence in a resource constrained project **Woodworth, B M and Shanahan, S** 89
Management: a synergistic catalyst in construction production **Epling, J A** 148
Measurement of project success **De Wit, A** 164
Probabilistic unit cost estimation for project configuration optimization **Jaafari, A** 226
Project financing and financial engineering **Repovž, L** 171
Project management and expert systems **Probst, A R and Worlitzer, J** 11
Project management as a tool in the underwater contracting industry **Gilbert, G P** 5
Project management PC workstation – a microcomputer application to government projects **Curling, D H** 217
Quality assurance – an effective project management technique **Churchill, G F** 241
Quality management model for building projects **Cornick, T C** 211
Relationships between the applications of project management techniques and project characteristics **Bu-Bushait, K A** 235
Resource planning and control in a multiproject environment **Angling, M** 197
Scope definition for bidding project-control services **Turner, E K** 39
Stansted Airport Development: a case study **Weller, P** 133
Superiority of NPV over NPV/K, and other criteria in the financial appraisal of projects: the case of energy conservation **Taylor, P** 223
The future of project management: some North Sea experiences **Graham, R** 153
The Greater Cairo Wastewater Project **Dawes, N J** 107
The Viking approach to project management **Fangel, M** 102
Unions in the construction industry **Muspratt, M A** 80

Subject

Association news 60, 123, 179, 246
Calendar 64, 128, 192, 255
Comment
Journal appraisal **Curtis, B** 3
9th World Congress on Project Management **Barnes, M** 67
Project management — the emergence of the profession **Gabriel, E** 131
Reflections upon INTERNET '88 **Curtis, B** 195

Conference and exhibition preview
9th INTERNET World Congress on Project Management: From Conception to Completion 185

INTERNET news 62, 126, 182, 250

Product description
'Prepod' A system for pre-production planning for project network analysis **Judd, D** 117
